NSWTG Data Breach - Public Notification Register

NSW Trustee and Guardian manages and responds to an eligible data breach, in compliance with obligations under the NSW Mandatory Notification of Data Breach Scheme. If it is not possible to notify individuals or organisations directly, details of the data breached should be included on this NSWTG Notification Register.

| Date / When | What / How / Type of breach occurred | | Type of information released | Action taken / Review & Pr | event / Reccommendations | Next Steps / Notify | |
|--|--------------------------------------|----------------------------|---|---|---|---|---|
| a) date the breach b) description of the breach occurred | c) type of breach that occurred | d) how the breach occurred | e) the type of personal information impacted by the breach | f) actions taken or planned to ensure that personal information is secure or to mitigate harm to individuals | g) recommended steps individuals should take in response to the breach | h) date the public notification was published | i) where to contact for assistance or information j) a link to the full public notification. |
